A copy of the Bylaws, Rules & Regulations, and Policies and Procedures are available upon request.

NOW THEREFORE, in consideration of the mutual covenants, promises, and agreement herein contained, it is hereby understood and agreed by the parties hereto as follows:

JCWC shall furnish, subject to its operational limitations, such quantity of water as Customer may desire in connection with Customer's occupancy of the following described real estate:

Service Address: _____ City: _____ Phone # _____

The Customer/Landowner agrees to grant to JCWC, its successors and assigns, a perpetual easement in, over, under, and upon the above-described land. The Customer/Landowner grants to JCWC a license to be upon above-described property for purposes to provide water service.

The Customer shall install and maintain at his own expense a service line which shall begin at the meter and extend to the dwelling or place of use. This will include a shut-off valve at some location for customer's use. The Customer's service shall be placed at the discretion of JCWC and completion of the installation of service shall constitute final completion of installation and reclamation of the tap site. Billing on this account will commence upon completion of installation of the water service.

The Customer agrees to comply with and be bound by this Agreement and also agrees to pay for water at such rates, time, and place as shall be determined by JCWC, and agrees to imposition of such penalties for noncompliance as are now set out in this Agreement now in force, or as hereafter duly and legally supplemented, amended, or changed.

The Customer shall be solely liable for any damages to JCWC equipment located on Customer's real estate.

Customer agrees that JCWC shall not be liable or responsible for any damages caused to customers, customer's personal property or third parties located on customer's real estate as a result of any interruption or loss or increase of water service from any cause.

The Customer agrees that in the event that service to this account is terminated due to Customer's violation of this agreement, any violation must be rectified before the account can be re-instated. Any outstanding amount owed to JCWC on this service must be satisfied prior to re-instatement or transfer of this account.

JCWC shall have final authority in any question of location of any meter and/or service line connection to its distribution system; and shall determine the allocation of water to Customers including quantity and method of use in the event of a water shortage. Customer agrees that water service is limited to servicing one (1) occupied dwelling. Customer further agrees that any multiple connection, that is, more than one occupied dwelling connected to a single meter, is a violation of this agreement and water service will be subject to disconnection until violation is corrected.

The Customer agrees that no other present or future source of water will be connected to any waterlines served by JCWC waterlines and shall eliminate any present or future cross/connections in the Customer's system. The Customer is required to install sufficient pressure reducing and backflow prevention devices in the Customer's service line. The Customer agrees to allow inspection of Customer's plumbing prior to activating service and anytime thereafter to insure compliance with all applicable JCWC, State, Local and Federal regulations.

In the event that water service cannot be made available by JCWC to the Customer for reasonable cause, JCWC shall have the right to terminate this agreement by delivering written notice to the Customer at the earlier described real estate.
